NETWORKS ON MY CAREER PATH

Social networks play an important role on our career development. Reflect on your career path and draw a timeline to remember to draw the ups, the lows and the phases between them. Name the career development phases (e.g., searching for the first job, starting the first job, changing a career, etc.) and think about the relationships that had an effect on your career. Name the people/relationships and try to define the effect of each relationship to your career development. If necessary, continue on the backside of the paper.
